The national guard

For defense against invasion, our real national guard is the millions of stalwart, young Americans in all walks of life, who must respond to their country's call for training and service in the ranks of our army and navy. For defense against invasion of the elements **CERTAIN-TEED Roofing** is the real "national guard".

Certain-teed Roofing

protects our buildings from the violence of storms; successfully resists the attacks of rain, hail, sleet and snow; is unaffected by the sharp assaults of frost, and the withering fire of mid-summer sun. It even withstands the ravages of time, for CERTAIN-TEED Roofing is guaranteed for 5, 10 or 15 years, according to ply (1, 2 or 3). Experience proves that it will out-last the period of guarantee.
